Subject: 2010 COMMAND PROPERTY INSPECTION REPORT

State Administrative Manual (SAM) Section 8652 requires departments to conduct a physical count of all state owned property and reconcile the count with accounting records at least once every three years. Departmental records indicate the last command inventory by the Office of Internal Affairs (formally Office of Investigations) was conducted in the month of August 2009. In order to provide independent verification and reasonable assurance to the Office of the Commissioner that departmental inventory records are complete and accurate, your command was selected for a property inspection.

In accordance with procedures outlined in Highway Patrol Manual (HPM) 11.2, Materials Management Manual, and HPM 22.1, Command Inspections Program Manual, an inspection of your command's property, including vehicles and weapons, was completed by the Property Inspector (PI) on April 22 – 23, 2010. Using property records from the appropriate Offices of Primary Interest (OPI), the PI selected a random statistically-valid sample of property that was stratified across four property areas: general inventory control, telecommunications, fleet, and weapons (see Attachments B, C, D, and E). Additionally, the PI chose items within your command and compared them to the appropriate inventory records.

According to the OPI inventory lists, the command had a total property inventory population of 357 items (a). The statistically-valid sample at a 95 percent confidence level \pm 5 percent error rate provided a total stratified sample size of 55 items when rounded up to the next whole number (d).

Safety, Service, and Security

	Population Size	Percentage of Total	Calculated Sample Size	Predetermined List Sample Size
	(a)	(b)	(c)	(d)
ICU Decals	188	52.67%	27.92	28
Telecommunications	118	33.05%	17.52	18
Fleet	8	2.24%	1.19	2
Weapons	43	12.04%	6.38	7
Total	357			55

When comparing equipment recorded on the predetermined property inspection list to equipment located at the command, 48 of the 55 items were located. Five items were transferred to other commands; one item was unavailable for inspection; and one item (recorder) that was not located was reported missing in 2009. The property inspection results of the equipment recorded on the predetermined property inventory list to equipment located at the command are summarized in Attachment A.

When comparing equipment assigned to the command to the OPI inventory lists, 34 of the 35 items reconciled. One item was located but listed under the command's old location code in the departmental property inventory system. This item requires a correction be made to the property record. The property inspection results of equipment located at the command to the OPI inventory list are summarized in Attachment A.

I request your command research and investigate the discrepancies in accordance with departmental procedures outlined in HPM 11.2, Materials Management Manual, Chapter 8, Equipment, and work with the appropriate OPI(s) to rectify any variances. A Physical Inventory Adjustment Request, CHP 24, must be completed to adjust the inventory records. In order to verify the above listed discrepancies have been rectified, please submit a memorandum to the Office of Inspector General through your respective Division by October 20, 2010.

In accordance with the Governor's Executive Order S-20-09 to increase government transparency, this report will be posted on the California Highway Patrol's internet website, and on the Office of the Governor's webpage, located on the State's Government website.

File No.: 006.14419.11636.2009moccover

Subject: 2009 MOVE OF COMMAND INVENTORY

On May 11, 2009, the Office of Investigations (OINV) completed its move from 2555 1st Avenue to the new Headquarters' campus located at 601 North 7th Street. In order to maintain accountability of all weapons, equipment and vehicles, it was necessary to conduct a Move of Command Inventory.

In June 2009, OINV completed a 'Move of Command Inventory' consisting of the Fleet Report, Officer Issued Weapons Inventory and Equipment. All issued weapons and vehicles were either on hand, or added or deleted from OINV's inventory using the appropriate documentation. As for equipment assigned to OINV, the Area was unable to locate two items.

<u>Asset Number</u>	<u>Serial Number</u>	<u>Description</u>
103938	34726	Sony Cassette Recorder
84624	56109052	Minolta Camera

A comprehensive physical search was conducted throughout the area with negative results. OINV developed a spreadsheet listing all equipment and specific locations which should curtail future instances such as this. Upon approval, OINV will generate the necessary documentation to update its current equipment inventory list.

If you have any questions or are in need of additional information, please contact me or Lieutenant Michael Richard at (916) 843-3060.

Subject: ICU PROPERTY REPORT, 2009 MOVE OF COMMAND INVENTORY

On June 16, 2009, I completed an 'ICU Property Report, 2009 Move of Command Inventory' for the Office of Investigations (OINV). The assigned equipment listed on the ICU's property report were all accounted for, except for the following equipment:

<u>Asset Number</u>	<u>Serial Number</u>	<u>Description</u>
103938	34726	Sony Cassette Recorder
84624	56109052	Minolta Camera

A comprehensive physical search was conducted throughout each unit of OINV for the unaccounted items. A check of the 2008 and 2009 OINV Credit Memos was completed and neither item was listed as removed. Sergeant Granrud, ID 15730 and I completed a physical search for the items at the previous Headquarter building at 2555 First Avenue in Sacramento.

The previous years inventory was crossed referenced and a search of those locations were conducted. Prior employees of OINV were also contacted but did not have any recollection of the whereabouts of either item. With all possible means exhausted, I recommend OINV coordinate with other Headquarters Commands to locate the missing items and take appropriate action.

I have attached the original 'ICU Property Report, 2009 Move of Command Inventory.' Furthermore, there is a newly developed spreadsheet listing OINV's equipment and specific locations relating to this report, which will assist with future inventories. The spreadsheet can be located in the following location: I Drive/006 Folder/Inventory/OINV MOC ICU Inventory.xls.
